AND THE BRAND

MANGO

With its roots in Barcelona, one of the cradles of the textile industry, MANGO has been looking to the future and inspiring the world with its passion for fashion and lifestyle for four decades. Since it was founded, Mango has placed creativity and design at the heart of all its decisions, and produced garments that seek differentiation with a language of their own. Our wish is to be familiar with and close to our customers, through commitment to service, personalisation and close understanding. Our brand, which is present worldwide, sets the pace of the fashion industry by innovating with the latest technology and progressing towards sustainability.

MAN
HOMBRE

MANGO MAN accompanies today's men in the ongoing challenges of everyday life: from the casual trends of streetwear to the smartness required of formal occasions. With a focus on technical garments featuring performance properties and quality essentials, the line, which was founded in 2008, has evolved into a paradigm of innovation at a competitive price. Mango Man makes use of online channels to reach out to urban customers from all corners of the world and integrates the updated codes of a new masculinity. In constant transformation, it has worked with figures from culture and sport such as the actor Adrien Brody, the artist and businessman André Saraiva and footballers Zinedine Zidane and Antoine Griezmann.
